

DAWN ALI

MOTIVATIONAL SPEAKER

SUMMARY

In 2009, at age 45, my life had crumbled before me. I found myself in a run-down motel, obese and sick, and trying to regrow bald spots. Rather than face defeat, I began taking the steps necessary to turn my life around. I used what I learned as a foundation of my life's work and began helping others take back control of their lives.

Today, I motivate, inspire, and coach others in the areas of leadership, weight/wellness improvement, healthy hair care and growth, happiness, confidence, and digital entrepreneurship.

I aspire to influence the lives of millions of people globally as a keynote speaker.
